Keywords

spelling, kickball

Materials Needed

kickball, kickball bases, list of spelling/high frequency words

Lesson Plan

Play kickball as usual, except ask each student to spell a word before being pitched the ball. If the student misspells the word, he or she "strikes" out. If the student correctly spells the word, the pitcher rolls the ball, and the game progresses normally. As a variation to the game, you might allow students to ask a teammate to help spell a word.

Assessment

Students are evaluated on their ability to spell the words correctly.
